

27 May 1960

MEMORANDUM FOR THE RECORD

STAT

[redacted] advised that when the Director talked with Mr. Kilday he apologized for not having briefed him on the U-2 project. The DCI indicated that he was under wraps on this one but he was still most sorry he had not talked to him earlier. Apparently Mr. Kilday assured him that this was all right. The Director added that he would like to sit down with Mr. Kilday in the near future to talk about this. [redacted] advised that in view of this conversation he thought it best to return to me my memorandum recommending an offer to brief the Kilday Subcommittee on certain projects. We agreed that in another week or so when things possibly have calmed down the Director should be reminded of his suggestion of a discussion with Mr. Kilday and he can be presented with the memorandum again for final decision.
